Dom Porquito

The pig farming complex is a corporation where the Acre Business Agency has 37% of the shares and 63% belong to other shareholders. It is composed of a Piglets Production Unit, a Refrigerator and Termination Units.

The Piglets Production Unit has a capacity of 2,000 arrays and the company is investing in this unit to increase its capacity for up to 6,000 arrays. The refrigerator has slaughter capacity of 1600 animals per day with an average weight of 120kg. It is one of the most modern in the country, with imported technology from Germany, producing carcasses, thin and embedded cuts.

There are in operation twenty-six Termination Units and building 19 units for small farmers, a public-private-community partnership. As reference, the integrated standard has a farm with accommodation capacity for 300 pigs per 90-day feeding cycle. The company's goal is to reach 100 integrated producers with 600 pigs capacity each, ensuring sufficient capacity to supply the industrial unit of pigs for slaughter up to 800 animals/day.

Since August/16 the company Dom Porquito is able to export to countries with laws similar to the Brazilian.
